

Women's Imaging Services

Specialized for your needs

As every woman is unique, so are her imaging needs. North Fulton Regional Hospital developed its Women's Imaging Center as a special place for to meet these diagnostic imaging needs. The center, an expanded service of Roswell Imaging Center, provides convenient access to women's imaging services in a friendly, relaxed and comfortable environment.

We offer a wide variety of services including:

- Mammography
- Ultrasound
- Stereotactic Breast Biopsy
- Bone Densitometry
- General Radiology

The Women's Imaging Center offers a wonderful alternative for women in North Fulton and surrounding areas. With convenient parking in the adjacent parking deck, you are only steps away from the services designed with you in mind.
